## PULMOTOR SHOWN FOR FIRST TIME IN CITY; IS WONDERFUL

MECHANISM AND OPERATION OF LIFE-SAVING AFFAIR IS DEMONSTRATED.

### PROVES VALUE IN DROWNING

Representative of Company Refutes Story Circulated of Its Impracticability.

A representative of the Dräger Oxygen and Apparatus company of Pittsburgh gave a very interesting demonstration this afternoon to a company of city officials and local physicians, explaining the use of the pulmotor.

The machine was placed on exhibition and its entire construction detailed as well as the practical uses to which the valuable little life saver may be put.

In refutation of a story circulated here, the pulmotor representative stated positively that the machine had saved many persons who had been drowned and who could not have been restored in any other manner.

Commissioners Gannon, Schmidt and Van Bibber responded to the invitation of the pulmotor salesman to all the city officials to view the exhibition. Drs. Kost and Moore also were present and took a great interest in the workings of the machine, for which the salesman quoted a price of \$150, including one tank of oxygen. Extra tanks may be purchased at \$15 each, but when they are empty they may be recharged for only 50 cents.

The city officials seemed to be greatly impressed with the value of the pulmotor, and the chances are that Dixon will soon possess one. At least it is hoped the city will purchase one.

**Good for Drowning.**  
Despite arguments to the contrary, it is claimed that in many cases the pulmotor has been of life-saving service in cases of drowning. Its manufacturers do not claim for it that in every case it will resuscitate the patient, but they also maintain the fact that occasionally a drowning patient is lost should not be an indication that the pulmotor is of no use in such cases any more than operations for appendicitis and similar ailments should be condemned because one fails occasionally.

The records of the manufacturer shows that hundreds of cases of apparent drowning have been successfully treated with the pulmotor, and that Dr. C. E. Stokes, Surgeon General of the U. S. Navy, was so greatly impressed with the success that attended the use of the machine in the rescue of several boys who were apparently drowned following a disaster at the naval training station in Chicago that he purchased eleven of the pulmotors immediately, one each for the eleven U. S. naval hospitals.

**Has Many Uses.**  
The benefits to be derived from a pulmotor are being more greatly appreciated each day and cases in which the machines have saved human life are reported daily. In every instance in which artificial respiration and the use of oxygen is beneficial the pulmotor has demonstrated its desirability. Recently it was shown that a girl of eight years, suffering from spinal meningitis, was kept alive ten and one-half hours by the use of the pulmotor, and it has been proven that the machines are of great value in cases of:

Asphyxiation, coal gases, poisoning, nervous shock, shock from operation, ether, child birth, electrocution, heart trouble, etc.

The machines come compactly set up in a small case, easily carried and weigh but 46 pounds. The oxygen cylinders, which are essential to the life of the patient and the operation of the machine, do not deteriorate with age, and can be kept indefinitely.

W. J. McAlpine went east this morning.

She was united in marriage to Henry Herbst at Gettysburg Oct. 22nd, 1857, and had she lived but one day longer they would have completed 56 years of wedded life.

To them were born nine children, seven sons and two daughters. One daughter, Adaline, died in infancy; the other, Annie, was spared to minister to her mother in her declining days. The sons are Edgar F., Nachusa; Joseph W., Dixon; Samuel H., Amboy; Harvey B., John S. and Robert E., of Nachusa.

He was almost dead before they reached him. W. H. Schrank was going to Cedarville in his auto and arrived on the scene a few minutes after the accident occurred. He picked the unfortunate man up and took him to his home in Cedarville. Dr. S. C. Thompson was called and upon examination found that his neck was broken. He died at 4:30 p. m., just 15 minutes after the accident happened.

## SHOT GUN EXPLODED WITH CYRIL WILSON

HAD A NARROW ESCAPE FROM DEATH WHEN BARREL OF GUN BURST.

Cyril, the son of Mr. and Mrs. Thomas Wilson, had a narrow escape from injury and possibly death while out hunting yesterday afternoon when the shotgun he was using exploded as he was shooting at a rabbit. The young man had used the gun all day, but probably in crawling through a fence had shoved it before him and probably had gotten the muzzle plugged with mud, with the result that the barrel exploded when he next shot it. It was extremely fortunate that pieces of the barrel did not inflict injury on the young man.

## PALMYRA RESIDENTS SHOW RIGHT SPIRIT

An example of fraternalism was demonstrated Tuesday when fifty neighbors and friends of Daniel Schuck, whose barn was destroyed by fire last week, donated teams and services to haul lumber, cement, gravel and other material for the erection of new buildings, and also offered their services toward raising a new barn. A like number of women gathered at the Schuck home to assist with the big dinner that was necessary to feed all of the willing and happy workers, and as a result the Schuck family, through their misfortune, learned the number of good friends they had in Palmyra and also the means true friendship takes in showing itself.

## WILL USE CONCRETE

### ACCORDING TO AGREEMENT

The local street car officials have changed their minds in regard to the order suspending the placing of concrete for paving between the rails in Chippewa and Shawnee streets. Mayor Franz took the matter up and sent City Engineer Hopper to meet the superintendent, who lives at Dixon. This morning word was received that the concrete will be placed in accordance with the agreement made with Atilla Norman, formerly in charge of the Freeport lines.—Freeport Bulletin.

## RUNAWAY HORSE IS KILLED BY A TRAIN

Train No. 11 struck a runaway horse between Dixon and Nachusa Monday night, killing the animal and demolishing the buggy. The rig was the property of Jacob Heber, living near this city. No one was in the buggy at the time. The force of the collision broke the gas pipe under one of the cars and started a fire which, however, was speedily extinguished. It is thought the horse got on the track at the C. & N. W. depot in Dixon, for a part of the buggy was found near there, and also a dressed calf, ticketed for Chicago, which presumably had fallen out of the buggy. The horse ran several miles along the track eastward before it encountered the train.

## GIRL MUST WEAR BLOOMERS OR QUIT ASHLAND SCHOOL

Unless the courts reverse the ruling of the Ashland, Wis., school board, the 14 year old daughter of E. H. Allen must wear bloomers, and dance, do other gymnasium work and take shower baths, contrary to the wishes of her parents and the advice of a doctor. By a divided vote the school board rejected the petition of Mr. Allen, through counsel, asking that the child be excused because she is not physically fit to undergo the exercise and the baths. The pupil, member of a high school class, had been suspended when by wish of her parents she refused to take the prescribed work.

## PARTIES' REUNION AIDED BY LOSSES TO PROGRESSIVES

POLITICIANS STUDY DROP IN SHAY'S VOTE COMPARED WITH ROOSEVELT'S.

### SEE EFFECT ON FUTURE

Republicans Believe Repeated Defeats Will End Split in Ranks.

The Chicago Record Herald.

Washington, Oct. 21. To political leaders who are manipulating the strings with a view to carrying the next national election, the result in the fifth supreme court district in Illinois yesterday, when C. C. Craig, democrat, was elected; L. D. Puterbaugh, republican, ran second, and A. H. Shay, progressive, ran third, was decidedly significant.

The tremendous decrease in the progressive vote in that election, taken in connection with the results of various special elections held within the year, is a great encouragement to the progressive republicans who are primarily interested in the national get-together movement. These election results are likely to have a greater significance when the republican national committee meets in December and later at the special convention, which the committee is expected to call.

### Roosevelt Vote Getter.

The thing now plain to all the astute politicians is that the personal Roosevelt force was the great factor in piling up the vote which the progressive party obtained in the national election a year ago. Without Roosevelt's personality it appears that the progressives can hardly expect to run better than a poor third anywhere. This fact, it is believed, will appear with undeniable force in the congressional election next fall, if the progressives go ahead with their program of nominating candidates in all districts throughout the country.

As matters now look, the main effect of progressive activity in the 1914 campaign will be the election of another democratic house of representatives and perhaps strengthening of the democratic hold on the senate.

### Division Helps Democrats.

It is being pointed out as most significant in the elections held since the national elections last November, congressional and otherwise, the republican and progressive vote together in practically every instance has greatly outnumbered the vote cast for the democratic candidates. In other words, democrats have been winning the elections, as they did in November last, by reason of the division among the former republicans.

Many of the political observers declare that when this aspect of the situation is made thoroughly clear to the rank and file, the utility of continuing the factional division against the common enemy will be realized and serious steps taken to reunite those who believe in fundamental republican principles. In short, it is believed that the progressive slump with Roosevelt's personality out of the equation will bring about the amalgamation which the get-together protagonists are seeking.

### Massachusetts Fight Next.

The progressives are not unlikely to receive considerable encouragement through the approaching election in Massachusetts. If they do make a great showing there the very most will be made of it, temporarily at least, but in the long run it is believed the general situation will tend toward a reunion of the old republican forces. The situation is peculiar in Massachusetts in that Mr. Bird, the progressive candidate for governor, is much stronger than his party, according to the opinion of well informed politicians. He made a great run a year ago and this year it is expected that he will poll more than half the vote he obtained last November.

## Dementtown Doings

Watch Depot Avenue Grow

This was the 22nd of the month, but nothing transpired that we noticed.

COAL. See McIntyre for coal. Clean, full weight and prices reasonable. Prompt delivery. Phone 206. 493 That garter is still unidentified.

The election in the fifth district is over. We predicted wrongly. We said the names might be reversed, Craig, Puterbaugh, Shay. It was the talk of the avenue Tuesday. Many rejoiced over Craig's victory. No comment on Shay.

Fred Wagner is busy fixing up his garage. Fred intends to have some fine place of business when he gets through. He will put a repair shop in the rear with a competent man in charge.

Colonel Brinton spent Tuesday in Chicago on business.

Henry Noble of the Cereal company went to Chicago Tuesday noon. He was accompanied by his wife.

H. H. Hart, the real estate man, has gone to Tampa, Fla.

Newspaper men were plentiful on the avenue Tuesday noon. Theodore Fuller and William S. Block were among the journalists, they being on their way to Chicago.

Snow in Chicago Tuesday morning. The roofs on cars westbound on the noon train were covered with snow. How cold it seemed so early in the season.

Larry Sullivan, section foreman, had his hands full Tuesday attempting to run down the runaway horse. No one seemed to know to whom the animal belonged. Larry found a dead calf quite a ways up the track and carried the dead one back to the station. The calf was dressed for the market. The wagon seat was also found up the track. It is reported that the horse was killed east of Natchua. The mystery will soon be solved.

The street car company fired up the cars Tuesday morning. There was general rejoicing over that Tuesday.

Constable John Howell was on the avenue Tuesday.

Jack Sullivan, Illinois Central brakeman, is here visiting with his home folks. Jack looks well and prosperous.

Have you seen the latest Tango neck piece? One of the happy girls on the avenue was out Tuesday wearing the new creation. Its color is a beautiful yellow.

This sign has passed out of existence; Fletcher Manufacturing Company. For years and years the sign has been viewed by the general pub-

lic. Today the sign is covered with red paint and is no more.

Rocky Rollins and wife have left the city for a visit with friends and relatives.

Mrs. Pankhurst is with us.

One On Jimmie.

Jimmie Reynolds went outside one evening to study the stars? He saw something that caused him to believe that things were not proper. Jimmie, hero that he is, rushed pell mell into the house, frightened mother and sisters, grabbed the old musket and rushed outside to do the act. When he arrived on the scene there was nothing doing. Jimmie's pride was cooled. It is impossible for us to enter into details. Let Jimmie explain.

Harold Joins Band.

Good reports come from Harold Woodyatt, former clerk in the North western freight office, who is now a student at the University of Illinois. Harold has made the first band, a position which few of the new university students attain. He has also made Turner's orchestra, the best organization of the kind in the school. Harold will accompany the band to Indianapolis next Saturday to assist in furnishing music for the big football game. He will later go with the band to Chicago for similar purposes. This is the case of another Dixon boy forging to the front.

W. C. on Duty.

We were pleasantly surprised to find W. C. Jones at his place of business Tuesday afternoon. Since we have been detailed to the avenue field this is the only time we have had an opportunity to visit with Mr. Jones. But why should "Billy" tie himself down to the place? He has followed the game these many years and has become prosperous in business. Today he has a son who is taking the business from his father's shoulders and is becoming the working member of the firm. Mr. Jones was very full of conversation on current topics and we found him as usual, a pleasant fellow to visit with. He has promised however, to keep in touch with the avenue doings and to lead us to a good item once in a while.

Off for Japan.

Gordon Utley left Dixon Tuesday noon for Japan. He will visit for a few days in Chicago. The Doings wishes the young man a pleasant journey to the Orient. It is a trip well worth the taking and a person who is financially able to take the trip is fortunate.

## MISS SALLIE MURRAY

Miss Murray, daughter of Major General and Mrs. Arthur Murray, is to be married in January to Lieut. Henry Conger Pratt, U. S. A. Her father is in command of the western division of the army, with headquarters at San Francisco, and the wedding will take place in that city.

## FLOOD IN MARYLAND

Towns Along Eastern Shore Suffer Big Losses.

Water Covers Streets—Women and Children Rescued—Death Follows Storm.

Baltimore, Oct. 22.—Practically every town along the eastern shore of Maryland is suffering severe damage from high water. The tide is the highest experienced in 20 years. In many places water covered the streets from twelve inches to five feet. A new \$20,000 concrete bridge and the Metropolitan Life Insurance company's building in Easton were destroyed. At Crisfield people were using rowboats to reach their homes. Houses were flooded at Elkton and at Salisbury a number of men, women and children living in huts near the Leatherbury cannery factory were rescued with difficulty in rowboats.

Chicago, Oct. 22.—Chicago's first snowstorm of the season, which swept over the city, proved the worst on record for October in its history. An inch of snow fell.

From Florida to Duluth and from New England to New Orleans dispatches told of disaster and damage in the trail of the cold and storm.

Two persons were killed—one in Chicago and one in Milwaukee. Six others were injured in Chicago and half a hundred elsewhere, and at least thirty-one saved from watery graves.

Pensacola, Fla., Oct. 22.—Five occupants of the launch Highball, who were thought to have been lost in the storm on Escambia bay Sunday, were landed safely at Milton, Fla., by the steamer City of Tampa.

London, Ont., Oct. 22.—A battle for hours against a terrific gale on Lake Erie ended when the steamer Elphicke, owned by the Buckeye Steamship company of Duluth, sprang a leak. Captain Collins ran the boat ashore off Long Point and the craft broke in two. The entire crew of 18 was saved after hard work by the Long Point life-saving crew. The steamer had on board 160,000 bushels of wheat.

New York, Oct. 22.—A wireless message told of the rescue at sea of the crew of eight men of the schooner Marjorie Brown by the North German Lloyd steamship Berlin. Captain Harassowitz of the Berlin said the schooner had sunk about 200 miles east of Sandy Hook.

## MOHONK LAKE MEET IS ON

Discusses Treatment of Indians and Filipinos.

Mohonk Lake, N. Y., Oct. 22.—Philippine problems shared with Indian affairs the chief interest of the thirty-first annual Lake Mohonk Conference of Friends of the Indian and other Dependent Peoples, which opened here today. Dr. Elmer Ellsworth Brown, chancellor of New York university, presided.

The leading feature of the Indian program will be a discussion of conditions among the so-called Five Civilized Tribes in Oklahoma, particularly of the question of protecting full-blood and minor Indians from the ruthless exploitation by grafters that caused a stir in congress last winter. Members of the Oklahoma delegation in congress, native officials of the tribes concerned, representatives of the Indian service and private citizens of Oklahoma will participate.

## MISHAP KILLS DIVING GIRL

New York, Oct. 22.—Gladys Kelly, one of "The Six Diving Belles," who do a vaudeville act, slipped from a springboard behind the scenes in the Eighty-Sixth Street theater. She incurred a fracture of the skull and died in a hospital.

## CHILDREN HATE OIL, CALOMEL AND PILLS

"California Syrup of Figs" Best for Tender Stomach, Liver, Bowels.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know their children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeiters sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

## Cribs for Baby Travelers.

Among the luxuries, comforts and conveniences nowadays provided by the great hotel are cribs for the baby guests. Even in the finest hotels these are a comparatively recent addition to the house equipment. Up to about five years ago, when a separate bed was required for a baby's use, a cot was put into the room, and many persons traveling for the first time with a baby still ask for a cot. They are agreeably surprised when informed that a crib can be supplied if desired. In a big hotel there may now be kept ready for use a dozen cribs in the care of the housekeeper; cribs simple but of the latest style of construction, ready to be sent whenever they are wanted.

## Why the Distrust.

A banker in central Kentucky was in the habit of wearing his hat a good deal in business hours, as in summer the flies used his bald pate for a parade ground, and in winter the cold breezes swept over its polished surface. A negro workman on the railroad each week presented a check and drew his wages, and one day as he put his money in a greasy wallet the banker said: "Look here, Mose; why don't you let some of that money stay in the bank and keep an account with us?" The darky leaned toward him and, with a quizzical look at the derby the banker wore, answered confidentially: "Boss, I 'ze jes' afeared. You look like you was always ready to start somewhere."

## Rough on Dad.

"Do you believe in love at first sight, mother?" "Of course, I do, my dear. Do you suppose I'd have married your father if I'd taken a second look."—Detroit Free Press.

## After the Dog.

"Have you given Fido his soup?" "Yes, mum." "And his chicken jelly?" "Yes, mum." "Then you can have some bread and cheese and go to bed."—London Tatler.

## ECZEMA SPREAD ALL OVER BODY

Began on Cheeks With Pimples. Itched Badly. Caused Disfigurement. Had to Put Mittens on Him. Used Cuticura Soap and Ointment. Eczema Left Him.

Roxbury, Ohio.—"When my little boy was two weeks old he began breaking out on his cheeks. The eczema began just with pimples and they seemed to itch so badly he would scratch his face and cause a matter to run. Wherever that matter would touch, it would cause another pimple until it spread all over his body. It caused disfigurement while it lasted. He had fifteen places on one arm and his head had several. The deepest places on his cheeks were as large as a silver dollar on each side. He was so restless at night we had to put mittens on him to keep him from scratching them with his finger nails. He could not sleep because I put those mittens on which would not allow him to scratch and then he would wake up and be cross. If he got a little too warm at night it seemed to hurt badly.

"We tried a treatment and he didn't get any better. He had the eczema about three weeks when we began using Cuticura Soap and Ointment. I bathed him at night with the Cuticura Soap and spread the Cuticura Ointment on and the eczema left." (Signed) Mrs. John White, Mar. 19, 1913.

Cuticura Soap and Ointment do so much for poor-complexioned, red, rough hair and dry, thin and falling hair, and cost so little, that it is almost criminal not to use them. Sold everywhere. Sample of each mailed free, with 32-p. book on the skin and scalp. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

## Quite Likely.

"My family dates back to the flood." "Now, that can't be so, Mac. Your folks didn't belong to the Noah tribe." "No, but he took along a Macintosh when he saw it was going to rain."—Kansas City Journal.

## Gentle Hint.

Caller—"You know, there was something I wanted to say to you, but it has quite gone out of my mind. I can't remember what it was." Maiden (hopefully)—"It wasn't good night, was it?"—Woman's Home Companion.

## Beauty of 'Ighgate.

Charles Whymper, the painter, visited a man at Highgate and took his eldest daughter in to dinner. He was talking about the scenery, when suddenly she said: "I think I get prettier every day, don't you?" "I beg your pardon. What did you say?" "I said, I think I get prettier every day." There was no mistaking, so Mr. Whymper answered: "Yes, indeed you get prettier; and no wonder in such fresh air and"—just then he caught her mother's eye and with the other women she left the room, with withering scorn. Then it flashed upon him that he had misunderstood her. She had dropped an "h." What she had said was, "I think Highgate prettier every day."—Christian Register.

## Humanity to Mules.

"In the fifteen years that I have been connected with societies for the prevention of cruelty to animals in this and other cities I never have received a complaint alleging cruelty to a mule," said the humane-looking man. "That immunity of mules from harsh treatment is an interesting question. Why are they immune? There are plenty of mules, even in New York. Does anybody beat them? Does anybody underfeed them? If not, why not? Does a mule show such a decided ability to take care of himself that his owner is afraid to abuse him? Or do men beat mules and starve them and escape punishment because the persons who witness the beating and starving think it is only a mule and not worth bothering about? What is the explanation of that phase of the mule question, anyhow?"—New York Times.

## Large Escort for Holy Carpet.

As is well known to Mohammedans, but to few Europeans, the Holy Carpet always travels with an escort to and from the holy cities of Medina and Mecca. This escort consists of 200 to 350 men of one of the Egyptian infantry regiments, with two small field pieces and two quick-firing guns, and about forty mounted men, together with their horses. The object of such a strong escort is to protect the sacred object from falling into the hands of the Bedouin tribes, through whose countries it must pass at various stages of its journey and who are also on the lookout for it, as the carpet is worth a fine ransom. Desperate attacks are not infrequently made upon the Holy Carpet by the Bedouins of the desert. Hence the strength of the escort.

## Little Variety.

Passenger—"I suppose you conductors are bothered by a lot of foolish questions." Railroad Conductor—"No; they all run about alike. The women all ask, 'When do we get there?' and the men, 'What can we get there?'"—Puck.

## ALBERT J. JEWELL, WHO DID NOT RETURN FROM HIS FLIGHT OVER THE OCEAN

When Jewell rose into the air at Hempstead, L. I., Monday, Oct. 13, the wind was blowing thirteen miles an hour. He started in the direction of the Belmont Racing park but was wafted toward the ocean. He was last seen so far as is known flying over Rockaway Inlet at the ocean shore. He was then about 4,000 feet high.

There is a chance that Jewell was taken up by some coasting vessel or even a liner. But wireless messages have been sent broadcast in the search and no news of him has been received.

Jewell was 27 years old and had been flying less than a year. Six months ago he obtained his license under the name of "Sidney Gordon" because he did not wish to alarm his wife. Later, however, he told his family of his work and took his right name.

Although Jewell had never made a flight of more than an hour he was recognized as very competent, having been a mechanic before he went into aviation.

At 4 o'clock this afternoon Miss Ada Lillian Baldwin, only daughter of Professor and Mrs. H. V. Baldwin, and Harold Stuart Hyde of Minneapolis, son of Mr. and Mrs. A. S. Hyde of Chicago were married at the home of the bride's parents, 409 E. Fellows street. The wedding was impressively simple and beautiful and many friends and relatives witnessed the union of one of Dixon's most beautiful, charming and accomplished young ladies to the young man whose boyhood home was here.

Rev. E. O. Bradshaw, pastor of the Baptist church, performed the double ring service. Pretty little Elizabeth Grant Hyde acted as flower girl and was the only attendant. The bride was given away by her father, superintendent of the North Dixon schools. The bride carried a shower bouquet of white roses and lilies of the valley. She was radiantly beautiful in a gown of white crepe meteor.

The beauties of autumn were utilized in decorating the entire house, a bower of vivid-colored leaves and yellow chrysanthemums. Before the ceremony Miss Wilhelmina Seyfarth sang "The Red, Red Rose." The bride received her guests in person before the ceremony.

Misses Lucile Morrison, Maude Reynolds and Louise Todd assisted in serving delicious refreshments.

The happy couple leave this evening for Chicago, where they will visit for several days before departing for their home in Minneapolis, where the bridegroom has a fine position with the General Electric company. He is a fine type of manhood and will make his mark in the world. Mrs. Hyde is a university graduate, having studied at the universities of Wisconsin and Illinois. She has been teaching in the public schools of Rockford, Ill., until recently. The many, many friends of Mr. and Mrs. Hyde start them off on life's journey with sincerest wishes that everything that is good in this world may come to them.

Many handsome gifts attest the esteem in which the bride and bridegroom are held by their admirers. Among the out of town guests were Mr. and Mrs. A. S. Hyde, Mrs. Philip Hyde and Miss Elizabeth Grant Hyde, Arthur Grant, Henry Kingwell and John Norton, all of Chicago; Wayne Hendricks of Belvidere, Miss Vumdahl, Rockford, and Mr. and Mrs. Beach, Batavia.

## Dramatic Notes

### PRINCESS THEATRE.

The Message to Headquarters will be the special feature at the Princess Theatre tonight. It is a great detective story, full of hairbreadth and thrilling moments.

### FAMILY THEATRE

The bill at the Family Theatre half includes Otto & Olivia, lady and gentleman in a comedy number that stamps them as juggling experts. They are better known as the human pool tables. Another number is Chet Wilson, a talking cartoonist of merit.

### Business Instinct Strong.

He had obtained a place in a real estate office, and was doing everything he could for the interests of his employers. The other evening he was at a social gathering, and was asked to sing. He responded with "Home, Sweet Home." His friends were a little surprised at the selection, but he was heartily applauded. Stepping forward, he said: "I am glad you like the song. There is nothing like 'Home, Sweet Home,' and let me say that the company I represent is selling homes on terms to suit within twelve minutes' ride of the city. Everybody ought to have a home. If you don't want to live there, it's the chance of your life for an investment."

### Peculiar Viennese Tax.

The more pretentious apartment houses in Vienna have a curious impost levied upon them. The doors are closed at ten o'clock at night, and after that hour every one who goes or comes must pay 20 cents until midnight and 40 cents thereafter until six o'clock in the morning. The impost must be paid as many times as a man enters or leaves a house. If, for instance, a person is in the house of a friend until one o'clock he must pay 40 cents on leaving the friend's house and another 40 cents on entering his own. The money thus raised is devoted to protecting citizens against burglars.—Harper's Weekly.

### Nature's Fireless Cookers.

Maori housewives of New Zealand have discovered, like their more civilized sisters, the value of the fireless cookers as a labor saver, but their cookers have neither to be made nor ordered. Nature furnishes them in inexhaustible supply, for they are nothing more nor less than the small geysers of the region. Using a box, a basket, or a bag, depending on what they are cooking, the women sink the receptacle in the moist mud over a steam hole, which makes an admirable oven. They not only cook their meals, but do their washing in these baby volcanoes.

## EDITORIAL

## ATTENTION NEEDED BADLY.

One place where some money could be very wisely expended, and where a great deal more will be sunk later on if nothing is done now, is the north bank of Rock river, between the Galena avenue bridge and the I. N. U. dam. For years the high waters of fall and spring have been washing and eating into the bank at this point and a good sized slice of land has been taken out of North Dixon and deposited on the delta at New Orleans.

North Dixonites would prefer to have their property kept nearer home, and are becoming justly exercised over the appalling inroads that the water is making in their river bank. There are several buildings that years ago were placed well back from the water's edge and on apparently high and solid ground, that will soon be so perilously close to the swiftly running waters that they will have to be moved.

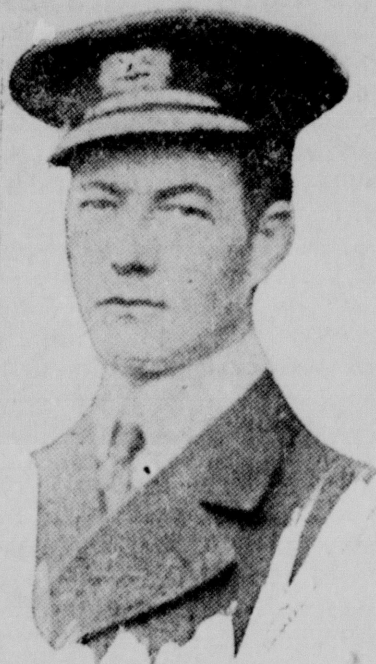

The personal loss that seems inevitable is not the most important feature of the situation, for Dixon's beautiful big bridge will soon suffer, as will also the I. N. U. dam. The ground is being eaten away back of the north abutment of the dam and that end of the structure will some day be without support and will give way, and when it does the north end of the Galena avenue bridge stands a good chance of riding away on the crest of the flood.

Wood piling or a concrete levee should be put in. The river at this point would be greatly benefited if the bank were walled up and filled in, and probably hundreds of thousands of dollars would be saved.

Inasmuch as the Illinois Northern Utilities company is as apt to lose as heavily as the city they should and undoubtedly will, be willing to pay a very substantial share of the cost of the improvement.

Continued from Page 1

It is expected that he will get at least 60,000 and perhaps 70,000 votes, whereas it is doubtful if any man running in his place on the progressive ticket could poll more than 30,000 or at the most 40,000. The expectation of Washington politicians is that the democratic candidate for governor in Massachusetts will be elected as a result of the present situation and complications.

CAPT. INCH OF THE  
STEAMSHIP VOLTURNO

Captain Inch was in command of the steamship Voltorno when she burned in mid-Atlantic Thursday and Friday. The rescued praise him for his judgment and nerve, and they speak highly of the other officers. But members of the crew, they said, could not be restrained and many women and children were lost because the crew went to the boats first.

## JEALOUS MAN SHOTS

Suitors in Mad Race for Girl's House.

Victim in Buggy Is Pursued by Mounted Rival and Probably Fatally Shot.

Joliet, Ill., Oct. 22.—Frank Brayton, a wealthy young farmer of Mazon, was shot, probably fatally, by an unknown rival mounted on horseback while he was riding in a buggy to the home of his sweetheart, Miss Margaret Werner of Gardner.

Brayton was riding in his buggy to Miss Werner's home. His rival learned of the trip, saddled his horse and pursued Brayton with a revolver ready.

A breakneck pursuit followed and young Brayton was soon overtaken. As the rider dashed up to the right he fired twice through the buggy curtains, both shots lodging in Brayton's body. The rider, thinking he had killed his rival, turned, but Brayton, in spite of his wounds, lashed his horse to speed toward the home of a physician in Gardner.

The man on horseback again pursued him and was joined by a companion, also on horseback. The two riders again overtook Brayton. One of the men stopped the horse while the other pressed his revolver to Brayton's side and fired. The bullet passed through his arm, into his left side and plowed its way up to his shoulder.

The injured man was only able to clutch his seat until he arrived in Gardner, where he was treated by Dr. W. A. Allison.

Brayton refuses to discuss his injuries and will not talk when asked the name of his assailant.

## GUSTS WATSON INDICTMENT

Judge Rules Government Must Plead Entire Article, Not Excerpts.

Augusta, Ga., Oct. 21.—Judge Foster, in United States district court here this afternoon sustained the motion of counsel for Thomas E. Watson, the Thomson editor, lawyer and politician, to quash the indictment against him charging the sending of obscene matter through the United States mails. This motion, presented Monday by S. Guy McLendon, chief of counsel for Mr. Watson, charged that to try him on this indictment would be to deny him his constitutional rights as a citizen and the clause granting freedom to the press.

The indictment of Mr. Watson was the outgrowth of publications in the Jeffersonian attacking the Catholic church's confession and the oath taken by initiates in the Knights of Columbus, a Catholic organization.

## RESIDES AT THE PALACE

Is Given Military Welcome on His Arrival—Makes Address at Y. M. C. A.—Will Be Kept Busy During Stay.

Rio Janeiro, Brazil, Oct. 22.—When Col. Theodore Roosevelt stepped from the steamer Vandyck here he was received with military honors.

Edwin V. Morgan, United States ambassador to Brazil, with the staff of the embassy, went on board before the vessel docked with a reception committee including Senhor Barros-Moreira, representing the ministry of foreign affairs; Lieutenant Colonel Achilles de Pederneras, Brazilian attaché at Washington; Don Jose Carlos Rodriguez, Admiral Antonio Coutinho Gomes Pereira and Antonio Olyntho de Magalhães of the historical institute.

The party disembarked on the naval arsenal quay, where a company of soldiers saluted, while bands played the Brazilian and American national anthems. Several committees presented bouquets of flowers to Mrs. Roosevelt and Miss Margaret Roosevelt.

Marshal Hermes Fonseca, president of the republic, was unable to be present, but he sent a special representative. All the cabinet ministers of Brazil, the minister of Argentina, with the members of his legation; the presidents of the Brazilian senate and chamber of deputies, a representative parliamentary committee, the chief commissioner of police, the presidents of the various tribunals of the high court of justice, the members of the municipal council, headed by the mayor of Rio Janeiro. Many members of the diplomatic corps, high functionaries of the government and military and naval officers in full uniform were among the welcoming delegations.

## Colonel Visits President.

A procession, headed by Colonel Roosevelt and the representative of the president of Brazil, proceeded to a reception room in the naval arsenal, which was decorated with Brazilian flags and the Stars and Stripes intertwined. Here Colonel Roosevelt and the members of his party were introduced to the leading officials.

After the ceremony Colonel Roosevelt was conducted to the Guanabara palace, where he will reside during his sojourn here.

All the newspapers published articles welcoming Roosevelt.

Colonel Roosevelt paid his respects to the president of the republic in a lengthy visit. The meeting was most cordial. He then called on Dr. Lauro Muller, minister of foreign affairs, and together they inspected the port works and the avenues for which Brazil is noted.

## Addresses Y. M. C. A.

In the morning he was the guest of the president at breakfast. Later he visited the military college and spoke before the Young Men's Christian association. In the evening he attended a performance at the Municipal theater.

On Thursday Colonel Roosevelt will visit the Oswaldo Cruz Institute of Pathology and Bacteriology, and will be the guest of honor at a reception given by the American ambassador and the North American colony.

## 5,000 PERSONS GREET SULZER

Former Governor of New York  
Arrives in Gotham—Assails  
Tammany.

### TO RENEW FIGHT ON BOSSES

Ousted Executive Given Such a Nole  
Welcome on His Return Home  
That Police Run to Scene  
to Learn Cause.

New York, Oct. 22.—Five thousand persons greeted William Sulzer at the Grand Central station when he returned home as a private citizen to re-enter politics as a nominee for the assembly.

"I am a Sulzer Democrat, and there will be many more Sulzer Democrats before many days," the deposed governor remarked when he heard the yell of enthusiasm upon his appearance.

The welcome to the East side was even more enthusiastic than that accorded at the station. People thronged fire escapes and roofs and hung from window sills, shouting greetings to the impeached governor.

In front of Tammany hall in Fourteenth street the chauffeur of the Sulzer car brought the machine to a stop and there ensued a dramatic demonstration so noisy that policemen for blocks around came running to learn the cause. Frantic Sulzer enthusiasts leaped from their automobiles, ran to Tammany's doors and shook their fists at the famous political headquarters.

In front of Progressive headquarters on Seventh street the demonstration reached its height. Finally, to stop the noise, Mr. Sulzer stepped upon the seat and waved his black soft hat.

"Friends, I have come back home," he began, brokenly, and another demonstration took place before he could continue. "I want to go back to Albany to represent you and not Mr. Murphy," he went on. "I shall be back again tonight to tell you things that will make you blush with shame for the citizenship of the state, which is in the clutches of a corrupt, cruel, relentless and arrogant boss who says he will destroy you if you do not do his bidding."

### WEDDING OF DIVORCEES HIT

Episcopalians Vote to War on "Great Evil" of Separation and Remarriage.

New York, Oct. 22.—At the general convention of the Protestant Episcopal church the house of deputies decided by resolution to co-operate with the "international committee on marriage and divorce" in arranging for an international congress to deal with the divorce question.

The congress will be held in May, 1915, at the Panama exposition in San Francisco.

The purpose, in the language of the resolution, is to awaken "the conscience of the American people toward the great evil of divorce and remarriage."

The committee on prayer book reported favorably on the proposal that the phrase "All Jews, Turks, Heretics and Infidels" be made to read: "All those who know Thee not through the Gospel of Thy Son." The house voted favorably on this change.

### THROWS SELF UNDER TRAIN

Joliet Man Almost on the Eve of Wedding Succeeds in Ending Life.

Joliet, Ill., Oct. 22.—William House, twenty-one years old, attempted to kill himself by drinking carbolic acid. He was revived by a physician and, while recovering, left his home, walked to the bridge of the Illinois & Michigan canal and plunged into the water below. He was forcibly rescued by fishermen.

He was taken to his home and then slashed his throat with a razor. His father knocked him to the floor before he could kill himself. House slipped away, ran to the Chicago & Alton railway tracks and hurled himself under the engine of the Alton Limited.

His body was pitched 100 feet in the air, but he was still living when picked up. He died two hours later. He was to have been married Friday to Miss Alice Rodway, an eighteen-year-old girl of Lockport.

### \$8,000 IN JEWELS STOLEN

Wife of Counsel for N. Y. Central Road Loses Gems.

Chicago, Oct. 22.—Acrobatic burglars invaded the select residence section of the North side last night, looted the home of Mrs. Malcolm Caruthers at 44 Banks street of \$8,000 in jewels and escaped. The stolen gems were the property of Mrs. Robert J. Cary, wife of the general counsel of the New York Central lines. She formerly was Miss Fannie Caruthers and was married to Mr. Cary January 18 last at St. James' Episcopal church. Many of the things taken were wedding gifts. The burglars effected entrance to the house by climbing a heavy vine and a water pipe at the front and swinging through a second-story window.

Boy Killed Playing Football.  
Vermillion, S. D., Oct. 22.—Marcellus Dunlap, thirteen years old, was killed almost instantly while playing football here.

### E. S. MILLER IS GIVEN FLATTERING MENTION

The Elk Grove Citizen, of California, contains an article concerning a well known former citizen of Dixon which will be interesting to his many friends here.

Over at Wilton there is a demonstration farm that is maintained by the people who have land in that vicinity for sale.

Here in Elk Grove E. S. Miller has built up a demonstration farm in the natural course of his agricultural operations that shows the adaptability and capability of the soil as regards many different varieties of farm products.

The land lies right along the railroad in the northwest part of town, and can be seen by all who pass through town on the day trains. There is a fine patch of alfalfa, and on it is an English walnut grove. The trees are young yet but in a fine state of growth. Then there is a vineyard and a peach orchard, cherry trees, and all looking the finest.

There could be no better advertisement for the town than this, and the fact that it was not meant for a demonstration farm carries more weight.

### COOL SUMMER DRINKS.

The acids of fruits and the mineral matter as well as food in many of the drinks make them particularly good. Some drinks are of themselves a food.

## YOU'RE BILIOUS AND COSTIVE!—CASCARETS

SICK HEADACHE OR SOUR STOMACH MEANS SLUGGISH LIVER AND BOWELS.

Get a 10-cent box now. Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step of untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your drugist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need good, gentle cleansing, too.

Use for Wireless Telegraphy.

Wireless telegraphy is being successfully made use of in surveying such countries as the Belgian Congo, Sudan and similar inaccessible places. It is well known that a very exact result can thus be obtained between any two points as shown by the difference in their respective times. Previous experiments prove that this latter is readily shown by sending wireless signals between the two points. The method is likely to prove a valuable one in colonial regions, where there are no telegraph lines, as portable wireless posts can be set up with little trouble. In Belgium it is thought that a map of the Congo which would take ten years to draw up can now be made in two years.

Peculiar Bulgarian Ideas. Only extreme poverty, a traveler says, will drive a Bulgarian into domestic service. As a rule, widows are the only servants to be got, and they will become cooks or housemaids only if they may bring all their family with them. Servants insist upon being introduced and shaking hands with all visitors, and will leave upon the least rebuke. The only way to keep them is to let their wages fall into arrears. "So strong is the sentiment against doing anything in the nature of menial work that I know of a case where a girl refused to fetch medicine from the chemist for her own mother. But the same girl would work in a stranger's garden or do needlework, because these occupations are considered honorable for Bulgarian women."

Condemned by Progress. A palm tree on Temple street, Los Angeles, over one hundred years old, has been cut down to make way for a business structure.

Wireless Telephones Reach Far. Auto wireless telephones have proved successful for a distance of 25 miles.

## SMALL AUDIENCE HEARS MILITANT

Madison Square Garden Sparingly Filled When Mrs. Pankhurst Makes Her Address.

### GIVES PRAISE TO WILSON

Says Revolution Is Only Means of Bringing Action on Petitions in England—No Need of Militancy Here.

New York, Oct. 22.—There was disappointment for Mrs. Emmeline Pankhurst, the militant leader from London, who was released from Ellis Island on Monday and sighs of regret from the Madison Square Garden management when Mrs. Pankhurst came on the stage last night to make her first public appearance of her present tour before an audience that in point of numbers fell far below expectations. About 3,000 persons were present, although there were 12,000 seats.

**Lauds Immigration Service.**  
Mrs. Pankhurst described her experiences with the immigration authorities, speaking with praise of them, declaring the work at Ellis Island admirably done, and the immigrants cared for there far better than are the poor, alien and native, in Great Britain.

"I have been accustomed to pleading my own cases in England," she said. "I wanted to go to Washington and plead my own case there. I want to thank those who pleaded for me there, and thank the American public. I do not think the Washington authorities, and I do not think President Wilson wants to be thanked. He would say, 'I did my duty.' I congratulate the American people who have officials in high places who perform their duties as they see them."

Women tried persuasion and argument in England, peaceful means that have been effective here, Mrs. Pankhurst said. These failing, violence became necessary. "Nothing was ever got from an English parliament except through violence," she said. "The machinery of the British government is an elaborate arrangement of how not to do anything."

"Whatever social legislation has been obtained has been due to women's civil war, and much of it was granted to soften the spirit of the suffragettes."

**Discusses White Slavery.**  
Mrs. Pankhurst discussed equal suffrage and white slavery. White slavery she characterized as "more awful even than negro slavery in its worst form ever was in the United States. In the slavery are slaves of every color, and they are all of one sex." She criticized England's flogging act providing punishment for white slave agents.

"Why don't they go to the seat of the evil?" she said. "Why don't they punish the customers? With no demand there will be no traffic. Give the women the opportunity to frame the legislation and there will be no white slavery. The government of the country is the biggest white slave firm we have got."

On one large banner was "Resistance to tyranny is obedience to God."

Mrs. Pankhurst spoke of the growth of the movement in England. "It is not necessary for the women in the United States to be militant in the sense we are. But let me say we are going to do the militant work for you, and we are glad to do it."

"We have felt the joy of battle. We have been in prison, and have been battered and starved. Our mouths have been forced open to give us food. I was sentenced to three years' penal servitude and was out of prison on the cat and mouse act in nine days. Four times I burst open the prison doors, and have served only three or four weeks of that prison sentence. This is all for the betterment of the human race and in time we will get the emancipation of women. Money is the least part of this fight, some are willing to pay with their lives."

**Censures Mrs. Pankhurst.**  
Baltimore, Md., Oct. 22.—The militant methods of Mrs. Emmeline Pankhurst were criticized by Rev. Dr. Anna Howard Shaw, president of the National Woman's Suffrage association, in an address before the Just Government league here. Doctor Shaw made it clear, however, that her disapproval rested chiefly on grounds of expediency.

"If I thought I could get the ballot for the women of this country by going out and smashing mail boxes I would do it," said Doctor Shaw. "If a government does not stand for what is good and just it should be overthrown by any means. But whenever women attempt to use physical force they are at a disadvantage."

**Borah Makes Objection.**  
Washington, Oct. 22.—Senator Borah of Idaho has written the Woman's Political union of Newark, N. J., he will not take part in any suffrage gathering where Mrs. Emmeline Pankhurst appears without taking the opportunity to denounce militant methods.

**Wants Oct. 12 Made Holiday.**  
Washington, Oct. 22.—Representative Cary of Wisconsin introduced a bill to make October 12, "Columbus day," a legal holiday in honor of the discoverer of America. He would have it observed on Monday in case it falls upon a Sunday.
